

SMS PRESENCE MOBILE MOTORIZED

Elegant and flexible stability for really big displays.

A unique design that completely hides cables and peripherals inside the product. Attractive and elegant on all sides, and thus able to be placed in the centre of the room. Perfect for large, heavy displays and touch-sensitive displays, due to the very stable, patented design. The motorised height adjustment is soft and quiet, readily available from a button at the side of the unit, behind the display. The display can also be locked with a padlock or the accompanying locking pin, giving increased protection from theft and personal safety. The accurate factory assembly means that installation is easy and quick, while the hidden cable chain inside the product ensures that the cables run freely with no risk of fastening. The design of the SMS Presence is, furthermore, protected. Maximum display weight: 120 kg. Finish: aluminium/anthracite grey.

QUESTIONS AND ANSWERS

How do I gain access to the cables and equipment inside the product?

- Removable magnetic covers on both the front and the back of the product make it easy to gain access to cables and other media equipment.

Is it difficult to move the bracket with a display mounted on it?

- It's easy. You can move the equipment easily and safely from one room to another with the aid of a handle. First lower the display using the motor. Always unplug the power before moving the unit.
